

## Laura Spector Rustic Design

### The Pirouette Sconce

Poetry and practicality converge in Laura Spector's "tongue-in-chic" **Pirouette Wall Sconce**.

Ambient light filters through the semi cylinder moss lamp shade, beneath which Oriental Bittersweet vines, a sustainable environmental resource, cascade in playful twirls and curls that are both exuberant and sculptural in form.

The UL listed sconce measures 28" in length with a 16" diameter lamp shade and takes two 40 watt/ 120 volt light bulbs.

The lamps, available by commission for spring 2007, are all hand crafted from organic materials so that each one is slightly unique.

A cast aluminum version the Pirouette is planned for late summer 2007.
